Dear Mr. Furey:

Subject: Copley - Price Family YMCA Fourth Review Assessment Letter;
Project No. 266825; Account / Internal Order No. 24002404;
Kensington-Talmadge Community Plan Area

The Development Services Department has completed the first review of the project referenced above. The site was formerly an auto dealership, and is currently improved with an existing three-level parking structure on a portion of the remaining vacant lot. The project proposes to construct a new two-story, 59,700-square-foot Recreation Facility, a 7,300-square-foot enclosed pool, demolish the existing three-level parking structure and construct a new three-level, 300 parking space above-grade garage. The project will require deviations for setbacks; refuse storage location; transparency in specific locations within the project site and offsetting plane requirements for the parking structure. The recreation facility would provide general membership to the local community and offer two pools, exercise and workout rooms, a computer lab, picnic area, outdoor play yard, and an outdoor soccer arena. The project site is located on a 3.70 acre site at 4393 43rd Street and 4300 El Cajon Boulevard. The site is bound to the North by Meade Avenue, the South by El Cajon Boulevard, the East by Fairmount Avenue and the West by 43rd Street. The project site is located within the CUPD-CU-2-4 zone of the Central Urbanized Planned District, the City Heights Redevelopment Project Area, the Transit Area Overlay Zone, and the Kensington-Talmadge neighborhood of the Mid-City Communities Plan area. The project shall integrate sustainable features consistent with council policy 600-27 and 900-14. The project is proposing to pursue LEED Silver Certification.

Attached to this Assessment Letter is a Cycle Issues Report (Enclosure 1) which contains review comments from staff representing various disciplines and outside agencies. The purpose of this Assessment Letter is to summarize the significant project issues and identify a course of action for the processing of your project.

If any additional requirements should arise during the subsequent review of your project, we will identify the issue and the reason for the additional requirement. To resolve any outstanding

issues, please provide the information that is requested in the Cycle Issues Report. If you choose not to provide the requested additional information or make the requested revisions, processing may continue. However, the project may be recommended for denial if the remaining issues cannot be satisfactorily resolved.

As your Development Project Manager, I will coordinate all correspondence, emails, phone calls, and meetings directly with the applicants assigned "Point of Contact." The addressee on this letter has been designated as the Point of Contact for your project. Please notify me if you should decide to change your Point of Contact while I am managing this project.

I. REQUIRED APPROVALS/FINDINGS: Your project as currently proposed requires the processing of a Conditional Use Permit (CUP) for a Privately Operated, Outdoor Recreation Facility over 40,000 square feet in size. The project is subject to the separately regulated use requirements in SDMC 141.0618 and SDMC 141.0606(c) and a Planned Development Permit (PDP) for the proposed project deviations. The project is also requesting Easement Vacations that are subject to the provisions of the Streets and Highways Code and requires a City Council Action – via Process Five. The CUP, PDP and Easement Vacations will be processed in accordance with Process Five, with City Council as the decision maker. Since the City Council is the decision maker for a Process 5, the project will first be heard by the Planning Commission for a recommendation before being heard by the City Council.

II. SIGNIFICANT PROJECT ISSUES: The significant project issues are summarized below. Resolution of these issues could affect your project. Additional explanation is provided in the Cycle Issues Report (Enclosure 1).

KEY ISSUES:

- Environmental staff is requesting revisions to some of the technical studies for the project. See Environmental staff's specific comments regarding which technical studies need to be updated.
- The traffic impact analysis review is currently under review and will be provided under separate cover.
- Transportation staff is requesting some revisions to the project plans. See Transportation staff's specific comments regarding requesting plan revisions.

III. STUDIES/REPORTS REQUIRED: A number of documents have been identified as necessary to the project's review. Reference the attached Submittal Requirements Report (Enclosure 2).

IV. PROJECT ACCOUNT STATUS: Our current accounting system does not provide for real-time information regarding account status; however, our records show a positive

balance of approximately \$4,700.00 as of August 21, 2012, last posting date (Account / Internal Order No. 24002404). This last review has not been posted to your account. (Auditor's Office takes 4-6 weeks to post charges to your account). It is estimated that this amount will not cover additional project review. Pursuant to Information Bulletin 503, the current balance is not the minimum allowed to continue processing the project. An invoice for \$11,000.00 is attached (Enclosure 3).

- V. **TIMELINE:** Upon your review of the attached Cycle Issues Report, you may wish to schedule a meeting with staff and your consultants prior to resubmitting the project. Please telephone me if you wish to schedule a meeting with staff. During the meeting, we will also focus on key milestones that must be met in order to facilitate the review of your proposal and to project a potential timeline for a hearing date. Your next review cycle will be the initial submittal and should take approximately 10 working days to complete.
- VI. **RESUBMITTALS/NEXT STEPS:** After the plans and associated documents have been modified pursuant to direction identified within the Cycle Issues Report, please make an appointment with **Jama Vega** at JVega@sandiego.gov to resubmit. After all required documents (see below) are submitted, I will route the packages to the same Multi-Disciplinary Team of reviewers. At your appointment, provide the following:
- A. **Plans and Reports: Four (4) sets** of the Development plans folded to an approximate 8 ½ x 11 inch size. Also, as shown on the attached Submittal Report, please submit the requested reports and documents, and copies of the reduced plan set (11x17) are required at your Submittal appointment, which are shown on the attached Submittal Report.
- B. **Cycle Issues Report response letter:** Prepare a cover letter that specifically describes how you have addressed each of the issues identified in the Cycle Issues Report and any issues identified in this cover letter, if applicable. (Note: cleared issues are identified with an 'X' within the comment box.) Or, you may choose to simply submit the Cycle Issues Report, identifying within the margins how you have addressed the issue. If the issue is addressed on one or more sheets of the plans or the reports, please reference the plan, sheet number, report or page number as appropriate. If it is not feasible to address a particular issue, please indicate the reason and/or justification for the proposed alternative. Include a copy of this Assessment Letter, Cycle Issues Report, and your response letter if applicable, with each set of plans.
- VII. **COMMUNITY PLANNING GROUP (PROJECT AREA COMMITTEE):** Staff provides the decision maker with the recommendation from your locally recognized community planning group. Please contact the Chair for the Kensington-Talmadge Planning Group, David Moty, at 619.255.2882 or email kentalpc@yahoo.com to make arrangements to present your project for review at their next available meeting. This Community Planning Group is officially recognized by the City as a representative of the community, and an advisor to the City in actions that would affect the community. The

Development Services Department has notified the group of your request and has sent them a copy of your project plans and documents.

VIII. STAFF REVIEW TEAM: Should you require clarification about specific comments from the staff reviewing team, please contact me, or feel free to contact the reviewer directly. The names and telephone numbers of each reviewer can be found on the enclosed Cycle Issues Report.

In conclusion, please note that information forms and bulletins, project submittal requirements, and the Land Development Code may be accessed on line at <http://www.sandiego.gov/development-services>. Many land use plans for the various communities throughout the City of San Diego are now available on line at <http://www.sandiego.gov/planning/community/profiles/index.shtml>

For modifications to the project scope, submittal requirements or questions regarding any of the above, please contact me prior to resubmittal. I may be reached by telephone at 619.236.6327 or via e-mail at lblack@sanidiego.gov.

Sincerely,

Laura C. Black, AICP
Development Project Manager
